3500 L/H - 925 GPH (US)

**High Performance Canister Filter**  
Now more energy efficient than ever!

# FLUVAL

**Self Starting**  
Just add water and plug in. Fluvial Smart Pump Technology will do the rest. No need for manual siphoning.

**Multi-Directional Output Nozzle**  
Twin output nozzles can be adjusted to create specific water flows.

**Maintenance Reminders**  
Monthly Indicator Dials allow you to remember the date of your last filter maintenance/water change.

**Purge Valve with Drain Hose**  
For easy maintenance and flushing of the canister.

**Clog-Free Strainer**  
Heavy duty anti-clogging strainer assures continuous flow.

**Water Change Feature**  
No need to carry buckets of water. Just attach appropriate hose to the output and the FX6 Smart Pump Technology will do the rest.

For Aquariums up to:	1500L
